Latin-jazz that delves deeply into both Cuban and Brazilian modern jazz traditions, modeled after the New York Latin-jazz spirit of Jerry Gonzalez & The Fort Apache Band and featuring some of Toronto's most acclaimed jazz and Latin music specialists, all under the direction of 2x National Jazz Award trumpet player BROWNMAN ALI. The group is named after the Arecibo radio telescope housed in Puerto Rico – the largest radio telescope in the world, responsible for the deepest exploration of space mankind has achieved to date.
